SUMMARY

Results-driven IT Support Specialist & Technical Support Engineer (L1/L2) with 3+ years of experience in high-volume ticketing environments (50-60+ daily). Combines strong ITIL-based troubleshooting with modern AI-assisted development workflows (Claude, Cursor, LLMs) to automate routine operations, analyze application logs, and build practical internal utilities. Proven track record in high SLA compliance, SAP/Active Directory administration, and bridging the gap between support operations and technical teams.

Key Impact & Achievements:
• Achieved 95%+ SLA compliance across fast-paced, high-volume service desk environments.
• Supported 1000+ users across SAP, Active Directory (IAM), and Microsoft 365 environments.
• Leveraged AI tools & scripting to automate ticket triaging and user support routines, reducing resolution time.
• Reduced recurring technical incidents by 25% through structured Root Cause Analysis (RCA).

CORE SKILLS

• IT Helpdesk & Technical Support: Remote Troubleshooting, L1/L2 Incident Resolution, Ticket Prioritization, Log Analysis & Debugging.
• System Administration & IAM: Active Directory, SAP User & Authorization Management, Microsoft 365 Admin, Access Provisioning.
• ITSM & Frameworks: Jira Service Management, Zendesk, ITIL Best Practices, RCA, Escalation Pathways.
• Modern Tooling & AI-Assisted Development: Claude, Cursor, LLM Workflows, Rapid Prototyping, Prompt Engineering, Automation Scripts.
• Mobile & Web Tech: REST APIs, JSON Data Handling, Kotlin / Jetpack Compose basics, Application Lifecycle.
• Network & Remote Tools: TCP/IP, DNS, VPN Troubleshooting, Slack, MS Teams, TeamViewer.

WORK EXPERIENCE

Customer Support Specialist | 5CA (Remote)
Feb 2025 – Jul 2025
• Managed 60+ daily tickets across technical support, customer experience, and incident resolution queues in an international remote environment.
• Delivered remote technical troubleshooting and L1/L2 support in fluent English (C1) to global clients across EMEA timezones.
• Streamlined ticket triaging using prompt engineering and AI-assisted workflows to improve First Response Time (FRT) and CSAT.

• Handled detailed interaction logging, issue tracking, and cross-team escalation in CRM systems.

Service Desk Specialist | Koç University
Apr 2023 – Jul 2023 | Istanbul, Turkey
• Managed 50+ daily incoming requests via Jira Service Desk, maintaining a consistent 95%+ SLA compliance rate.
• Provided tier-1 and tier-2 IT support to 1000+ internal users, managing SAP user roles, system authorization, access permissions, and Active Directory provisioning (IAM).
• Reduced overall resolution time by optimizing first-line live chat efficiency and technical escalation pathways.
• Created HTML-based internal IT communications and documented knowledge base articles for system troubleshooting.

IT Consultant | Uzman İste IT & Consultancy
Sep 2022 – Apr 2023 | Istanbul, Turkey
• Delivered hands-on remote technical support (TeamViewer) resolving complex hardware, software, and local network issues (TCP/IP, DNS, VPN).
• Reduced recurring technical incidents by 25% by implementing structured Root Cause Analysis (RCA).
• Streamlined multi-channel support workflows (Phone, Email, Ticketing) to shorten turnaround times.

Customer Service Representative | Webhelp
May 2022 – Aug 2022 | Istanbul, Turkey
• Handled 50+ daily inbound interactions in a high-volume environment while upholding strict service quality standards.
• Optimized Average Handling Time (AHT) and customer experience through structured problem identification.

TECHNICAL PROJECTS & PROTOTYPES (AI-Assisted)

Native Android Applications & Utilities
• Developed functional, production-ready native Android applications (Kotlin / Jetpack Compose) using AI-assisted development (Claude/LLMs).
• Implemented REST API integrations (JSON parsing), background scheduling (AlarmManager/WorkManager), and responsive UIs.
• Handled end-to-end application lifecycle, debugging, and log tracking to ensure crash-free execution.
